

BD-2100 moisture meter

The best-selling BD-2100 is a versatile moisture tester. Besides testing the moisture content of your wooden floorings, it also can be used on gypsum, concrete, sheetrock and other building materials. The BD-2100 has a digital display, an adjustable alarm, and Delmhorst's exclusive calibrated drywall scale as well.

Your Benefits:

- Bright, clear digital display
- Three scales:
 - Wood Scale - 6% - 40% moisture range.
Use for flooring and building materials, such as wood studs, floor joists, subfloors
 - Reference Scale - reads from 0 - 100 on a relative basis.
Use on non-wood materials, such as concrete, plaster, and insulation
 - Gypsum Scale - 0.2%-50% moisture range.
Use on drywall
- Averages up to 100 accumulated readings
- Built-in calibration check
- Audible, adjustable alarm alerts you when your pre-selected MC has been reached
- Integral contact pins mounted on top of meter provide 8mm (5/16") penetration
- Built-in connector accepts any Delmhorst electrode
- Size: 20x8x4cm (8x3x1 5/8")
- Weight: 285gr. (10 oz)
- Rugged construction ensures years of reliable use
- Sturdy plastic carrying case
- 9V battery
- 1-year warranty

Special Packages:

Moisture BD-2100 Flooring Package:

Includes meter, 26-ES electrode, extra contact pins for the meter, extra 496 pins for the 26-ES electrode, and carrying case

Available recommended electrodes:

26-ES Hammer electrode

Easily check high density hardwood that short pins are unable to penetrate. It will also easily penetrate through flooring to plywood sub-floor or concrete.

2-E pin electrode

Great for hard to read areas.
Use on timber, poles and veneer.
