

J-4 moisture meter

The J-4 wood moisture meter is a user-friendly meter that you'll pick up with ease, but never want to put down! A tried and true solution for those who work with wood.

Your Benefits:

- Easy-to-read analog display
- Moisture Range: 6%-30% on wood
- Built-in calibration check
- Integral contact pins mounted on the meter prove 8mm (5/16") penetration
- Built-in connector accepts any Delmhorst electrode
- Size: 20x8x4cm (8" x 3" x 1 5/8")
- Weight: 285gr. (10 oz)
- Rugged construction ensures years of reliable use
- Sturdy plastic carrying case
- 9V battery
- 1-year warranty

Special Packages:

Moisture meter J-4 **Flooring Package:**

Includes meter, 26-ES electrode, extra contact pins for the meter, extra 496 pins for the 26-ES electrode, and carrying case.

Available recommended electrodes:

26-ES Hammer electrode

Easily check high density hardwood that short pins are unable to penetrate. It will also easily penetrate through flooring to plywood sub-floor or concrete.

2-E pin electrode

Great for hard to read areas.
Use on timber, poles and veneer.

Available accessory:

MCS-1

Moisture content standards are great for verifying that your Delmhorst moisture meter is in calibration. The MCS-1 can be used on any meter with a wood scale. With two electrical resistance values (12% and 22%) to test your meter against, you can be sure that your readings will stand up to the strictest standards of accuracy.
