

## ProScan moisture meter

**Proscan is a non destructive pinless wood moisture meter** for those who want to quickly find moisture in wood. The non-invasive meter is made in the USA and uses radio frequency signals to quickly scan not only wood but also drywall, concrete or other building materials without damaging the sample. Its built-in species corrections for woods with a specific gravity of between .30 and .80, checking a variety of wood species is a cinch.

*With ProScan professionals can work with confidence,  
save time, stay on budget and avoid call-backs.*

### Your Benefits:

- Handheld, compact, lightweight
- Easy-to-read digital display
- Quickly scan large areas to find moisture hot spots
- Calibrated to minimize false high readings
- Built-in battery/calibration checks
- Adjustable alarm alerts you when a preselected moisture level has been reached, allows the user to easily compare readings against an established dry standard
- Advanced RF technology makes it easy to quickly sweep large areas and locate high-moisture spots
- Hold function makes taking readings in hard-to-reach places fast and easy
- Built-in species corrections over the range of .30-.80 SG
- 0-100 reference scale for non-wood building materials
- Measures %MC on wood over the range of 5%-30%
- Rugged sensor pad measures moisture up to ¾" (1.9cm) deep without damaging the sample
- Operating Temperature: -20°C to +70°C
- Size: 14x8,5x3cm (5½"x3¾"x1¼")
- Weight: 241gr. (8.5 oz.)
- One 9-volt battery included>
- Rugged carrying case
- 1-year warranty
